“By the end of the century there will be an increase of carbon dioxide in the atmosphere by more than 10 per cent. . . . [which] will be sufficient to melt the icecap and submerge New York. All the coastal cities would be covered”

Year?

"By the end of the century there will be an increase of carbon dioxide in the atmosphere by more than 10 per cent. . . . [which] will be sufficient to melt the icecap and submerge New York. All the coastal cities would be covered"

- Edward Teller at "Energy and Man", hosted by the API and the Columbia University Graduate School of Business, **1959**

Sept. 2019: Nine cases ongoing (so far)

“The key lesson to take away from the tobacco experience here is that once tobacco litigation began, it continued incessantly for decades.

We’re at the dawn of this age of litigation that will be facing the oil companies.

**This is not a fleeting phenomenon.
It is likely to define the future.”**

- Carroll Muffett,

Center for International Environmental Law
